Acknowledgement of In-Kind Commercial Support

No in-kind commercial support was received for this educational activity.

Satisfactory Completion

Learners must listen to each self-directed audio recording while following along with the visual slides and complete an evaluation form to receive a certificate of completion. Your chosen sessions must be viewed in their entirety. Partial credit of individual sessions is not available. If you are seeking continuing education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

Joint Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and MED Learning Group. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Nurses (ANCC) Credit Designation

Amedco LLC designates this activity for a maximum of 1.00 ANCC contact hours.

Objectives - After Attending This Program You Should Be Able To

- 1. Assess updates in tumor assessment, including targetable mutations and considerations for eligibility with immunotherapeutic options for cancer management.
- 2. Explain the latest developments in therapeutics, including developments in novel targeted and immuno-therapeutic mechanisms, across malignancies.
- 3. Summarize best practices for monitoring and management of potential unique adverse events associated with novel therapeutics across oncology.
- 4. Evaluate best practices for integrating patient advocacy and optimal communication in oncology care.

Disclosure of Conflict of Interest

The following table of disclosure information is provided to learners and contains the relevant financial relationships that each individual in a position to control the content disclosed to Amedco. All of these relationships were treated as a conflict of interest, and have been resolved. (C7 SCS 6.1---6.2, 6.5)

All individuals in a position to control the content of CE are listed below.
